Lord, give us the strength to wipe out war movies,
patent hamburgers,
and super highways.

Let us not sit on our behinds in a silent mass,
accepting and believing in our own apathy.

Scare us from the multi-packaging of our souls,
free our bodies,
remind us of feeling.

We are a unity
removed from experience and wisdom.

Let us stop doing,
in order to think,
to understand,
and to love.

Amen.

A Cheer for our side

What with Watergate and all, some Americans find themselves in a melancholy mood concerning their country and the democratic system on which it was founded.

Is there then someone to say "Three cheers for the USA," instead of knocking it? There is, and interestingly enough he is not just a "flag-waving patriot" but a Canadian. Gordon Sinclair, a Toronto radio commentator, recently broadcast an editorial, widely reprinted in the press and Congressional Record. We give excerpts from it here.

This Canadian thinks it is time to speak up for the Americans as the most generous and possibly the least appreciated people on the earth . . .

Germany, Japan and, to a lesser extent, Britain and Italy were lifted out of the debris of war by the Americans who poured in billions of dollars and forgave other billions in debts. None of these countries is today paying even the interest on its remaining debts to the United States.

When the franc was in danger of collapsing in 1956, it was the Americans who propped it up, and their reward was to be insulted and swindled on the streets of Paris.

I was there, I saw it.

When distant cities are hit by earthquakes, it is the United States that hurries in to help . . . This spring, 59 American communities (were) flattened by tornadoes. Nobody helped.

The Marshall Plan and the Truman Policy pumped billions upon billions of dollars into discouraged countries. Now newspapers in those countries are writing about the decadent, war-mongering Americans.

I'd like to see just one of those countries that is gloating over the erosion of the United States dollar build its own airplanes.

Come on, let's hear it!

Does any other country in the world have a plane to equal the Boeing Jumbo Jet, the Lockheed Tristar or the Douglas 10?

If so, why don't they fly them? Why do all the international lines except Russia fly American planes?

Why does no other land on earth even consider putting a man or woman on the moon?

You talk about Japanese technocracy, and you get radios. You talk about German technocracy, and you get automobiles.

You talk about American technocracy, and you find men on the moon — not once but several times — and safely home again.

You talk about scandals, and the Americans put theirs right in the store window for everybody to look at.

Even their draft-dodgers are not pursued and hounded. They are here on our streets, and most of them — unless they are breaking Canadian laws — are getting American dollars from Ma and Pa at home to spend here . . .

When the railways of France, Germany and India were breaking down through age, it was the Americans who rebuilt them. When the Pennsylvania Railroad and the New York Central went broke, nobody loaned them an old caboose. Both are still broke.

I can name you 5,000 times when the Americans raced to the help of other people in trouble. Can you name me even one time when someone else raced to the Americans in trouble?

I don't think there was outside help even during the San Francisco earthquake.

Our neighbors have faced it alone, and I'm one Canadian who is damned tired of hearing them kicked around.

They will come out of this thing with their flag high. And when they do, they are entitled to thumb their nose at the lands that are gloating over their present troubles.
